

Eight Lakes Quality Policy

The quality policy of the Eight Lakes group and its members has four main goals.

Satisfied customers

The quality of our products and services has to meet the requirements and wishes of our customers.

Continuous improvement

All the companies in the Eight Lakes group continuously improve their processes to add value for our customers, suppliers and partners.

Qualified suppliers

We work closely together with a specific selection of companies that pursue the same quality goals and have a monitoring system in place to ensure the delivery of qualified products and services.

Responsible employees

At Eight Lakes, our employees are important partners. Therefore, we encourage personal development and open communication. We empower our employees to focus on quality in their work, supported by our business management system.
